

TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

NOTICE IS HEREBY GIVEN that the Department of Food and Agriculture amended Section 3433, subsection (b) of the regulations in Title 3 of the California Code of Regulations pertaining to Diaprepes Root Weevil Interior Quarantine as an emergency action that was effective on December 20, 2006. The Department proposes to continue the regulation as amended and to complete the adoption process by submission of a Certificate of Compliance no later than April 19, 2007.

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period. Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department of Food and Agriculture, at its own motion, or at the instance of any interested person, may adopt the proposal substantially as set forth without further notice.

Notice is also given that any person interested may present statements or arguments in writing relevant to the actions proposed to the agency officer named below on or before April 9, 2007.

Following the public hearing and the written comment period, the Department of Food and Agriculture may certify that there was compliance with provisions of Section 11346.1 of the Government Code within 120 days of the emergency regulation.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law obligates the Department of Food and Agriculture to protect the agricultural industry of California and prevent the spread of injurious pests (Food and Agricultural Code Sections 401 and 403). Existing law provides the Secretary may establish, maintain, and enforce quarantine regulations, as he deems necessary, to circumscribe and exterminate or prevent the spread of pests (Food and Agricultural Code, Sections 5301, 5302 and 5322).

This amendment of Section 3433 expanded two new quarantine areas in San Diego County (Fairbanks Ranch and La Jolla areas). This added approximately five and one half square miles to the La Jolla area and two square miles of the Fairbanks Ranch area of San Diego County as additional areas under quarantine for *Diaprepes abbreviatus*. The effect of the amendment is to provide authority for the State to regulate movement of the articles and commodities covered that may move life stages of the Diaprepes root weevil from, into, and within that area under quarantine to prevent artificial spread of the weevil to noninfested areas to protect California's agricultural industry. There is no existing, comparable federal regulation or statute.

COST TO LOCAL AGENCIES AND SCHOOL DISTRICTS

The Department of Food and Agriculture has determined that Section 3433 does not impose a mandate on local agencies or school districts, except that an agricultural commissioner of a county under quarantine has a duty to enforce Section 3433. No reimbursement is required for Section 3433 under Section 17561 of the Government Code because the San Diego County Agricultural Commissioner requested the changes in the regulation.

The Department also has determined that the amended regulation will involve no additional costs or savings to any state agency, no reimbursable costs or savings under Part 7 (commencing with Section 17500) of Division 4 of the Government Code to local agencies or school districts, no nondiscretionary costs or savings to local agencies or school districts, and no costs or savings in federal funding to the State.

EFFECT ON HOUSING COSTS

The Department has made an initial determination that the proposed action will not affect housing costs.

EFFECT ON BUSINESSES

The Department has made an initial determination that the proposed action will not have a significant, statewide adverse economic impact directly affecting some California businesses, including the ability of California businesses to compete with businesses in other states.

COST IMPACT ON REPRESENTATIVE PRIVATE PERSON OR BUSINESS

The cost impact of the amended regulation on a representative private person or business located within the regulated area may be significant. An average infested ornamental production nursery producing plants in one-gallon containers may incur initial costs of \$334 to \$527 per acre per six month period and; thereafter, ongoing costs of \$214.75 to \$456.25 per acre per six month period in reasonable compliance with the proposed action. Approximately 65,000 one-gallon containers may be placed upon one acre. This translates into an initial increased production cost of \$0.005 to 0.008 per one gallon container and an ongoing production cost of \$0.003 to 0.007 per one gallon container of nursery stock every six months. The actual costs may vary with the type, size and production practices of the affected businesses.

ASSESSMENT

The Department has made an assessment that the proposed amendment to the regulation would not (1) create or eliminate jobs within California, (2) create new business or eliminate existing businesses within California, or (3) affect the expansion of businesses currently doing business within California.

ALTERNATIVES CONSIDERED

The Department of Food and Agriculture must determine that no reasonable alternative considered by the Department or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

AUTHORITY

The Department proposes to amend Section 3433 pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the Food and Agricultural Code.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the Food and Agricultural Code.

EFFECT ON SMALL BUSINESS

The amendment of this regulation may affect small businesses.

CONTACT

The agency officer to whom written comments and inquiries about the initial statement of reasons, proposed action, location of the rulemaking file, request for a public hearing, and final statement of reasons may be directed is: Stephen S. Brown, Department of Food and Agriculture, Plant Health and Pest Prevention Services, 1220 N Street, Room A-316, Sacramento, California 95814, (916) 654-1017, FAX (916) 654-1018, E-mail: sbrown@cdfa.ca.gov. In his absence, you may contact Liz Johnson at (916) 654-1017. Questions regarding the substance of the proposed regulation should be directed to Stephen S. Brown.

INTERNET ACCESS

The Department has posted the information regarding this proposed regulatory action on its Internet website (www.cdfa.ca.gov/cdfa/pendingregs).

AVAILABILITY OF STATEMENT OF REASONS AND TEXT OF PROPOSED REGULATIONS

The Department of Food and Agriculture has prepared an initial statement of reasons for the proposed action, has available all the information upon which its proposal is based, and has available the express terms of the proposed action. A copy of the initial statement of reasons and the proposed regulation in underline and strikeout form may be obtained upon request. The location of the information on which the proposal is based may also be

obtained upon request. In addition, when completed, the final statement of reasons will be available upon request. Requests should be directed to the contact named herein.

If the regulations amended by the Department differs from, but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of amendment. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency officer (contact) named herein.
